The background of the slide is a photograph of stacked plastic crates. The top half of the image shows several layers of bright blue crates, while the bottom half shows several layers of bright red crates. The crates are arranged in a grid pattern, and the perspective is from a low angle looking down at the top of the stacks.

Service

PERSONALISATION AND CUSTOM-MADE PRODUCTS

- ▶ **Individual design:** We can personalise your load carrier with your logo, company name or a K3-print
- ▶ **Different box stacking height:** Do you need 48 crates instead of 24 per pallet? No problem.
- ▶ **Different pallets:** We will be happy to stack your crates on H1 or other pallets for you
- ▶ **Skids for plastic pallets:** We can also provide skids for your plastic pallets that can simply be clipped on, or we will even mount them for you.
- ▶ **Protective packaging:** To meet the very strictest of hygiene requirements, we can also wrap your loading equipment in film, pack them below a hood or turn the top crate upside down for you.
- ▶ **Disinfection:** Do your new goods need to be disinfected first? We will be happy to take care of this for you.
- ▶ **Mixed loads:** Do you need different loading equipment on one lorry? We will be happy to do this for you.
