

Products & Solutions

We don't just offer you standard solutions; on the contrary, we develop a customised solution that is ideal for your logistical challenges. In the process we provide you with **individual elements of load carrier management** as well as **end-to-end solutions for the entire value chain** – from consultation to procurement, renting, financing, logistics, cleaning, account management and pooling right up to recycling. We attach great importance to fair and **cooperative partnership** and always strive to find the perfect solution for you and your company.

RECYCLING

Raw materials such as high-quality plastics are valuable. For this reason – and because we not only think in terms of profitability but also eco-friendliness – we focus on recycling of damaged load carriers. Thus, you don't have to take care of the disposal; we replace your defective load carriers and pay you the value of the raw materials.

REQUIREMENTS ANALYSIS

What challenges do you face? Do you require "plain old" standard load carriers or specific, individual products? How high is your demand – normally and during peak times? Do you require financing concepts? Would you like to reduce your administrative effort through fully automated pooling solutions? Whatever you need, we have an appropriate solution for every challenge – after all, we have been in this field for the last 20 years. Get in touch with us and we will be happy to advise you!

PROCUREMENT

You require load carriers and/or equipment at the right time and place? Then you've come to the right place! Whether you are considering buying or renting, you will benefit from our wholesale prices offered by certified manufacturers. Moreover, we are known for our reliable and timely deliveries even during peak seasons. We ensure this through our long-term partners, who comply with our quality standards regardless of whether they are new goods or second-hand.

ACCOUNT MANAGEMENT, POOLING

Just imagine: no managing your accounts, no preparing tedious individual statements, all available load carriers at a glance and therefore cost-effective logistics... We make this dream come true for you – either through fully automated processes using our in-house software poolbook, or manually. Poolbook can be connected to your ERP system easily and without hassle. In either case, you do not have to worry about anything; we take care of it with our pooling solution.

LOGISTICS, CLEANING, STORAGE

You focus on your core business, we will take care of your load carriers. Benefit from our Europe-wide network to transport your empties in a cost-effective manner. Don't struggle with certifications for perfect, food-grade load carriers – leave it all to us. Why block storage capacities when we can take over the storage management from you?

FINANCING, RENTAL

You wish to buy, rent, clean or pool load carriers? Together with our partners, we offer you appropriate financing concepts such as leasing or hire purchase. You can, of course, also rent a few standard products from us.
